PROGRESS ELECTROPLATING AND MANUFACTURING CO.LTD

About Us

PEMCO – Progress Electroplating and Manufacturing Co. Ltd is a Manufacturing and Distribution company based in Bray Co. Wicklow, Ireland supplying the Electrical Wholesale Trade in the Republic of Ireland, Northern Ireland, and the UK.

Established in 1974 by Joseph Tynan Snr. an electrician by trade, it has now become a third-generation family run business employing over 20 people. PEMCO has grown from humble beginnings to become **Ireland's leading, manufacturer importer and distributor of electrical components.**

We stock a full range of Cable Management Systems, PVC Flush and Surface Boxes, Metal Boxes, Earth Rods and boxes, PVC Conduit and Accessories, Wiring Accessories, Lighting and much more.

All PVC boxes, Trunking and Conduits are manufactured in our 20,000sqft facility in Bray, Co. Wicklow. PEMCO is the only manufacturer of these products in Ireland. We also manufacture and assemble some of our lighting range here in Bray.

Cable Management specialists with unrivalled experience. PEMCO is Ireland's leading manufacturer of Cable Management solutions for commercial, industrial, healthcare, education and domestic markets. Proficient technical skills and excellent customer service are at the core of PEMCO's Electricals' expertise. Going further to exceed customers' expectations is part of our DNA. In 2024, PEMCO celebrate 50 years in business.

Our comprehensive stock profile, reliable delivery, competitive pricing, and knowledgeable staff are the reason our customers come back again and again.

We work closely with all our suppliers to ensure we continue to meet our customers' requirements in terms of features, benefits, and price!

Naturally, quality and Safety are top priorities, and all our products are tested to meet and exceed the toughest European Standards.

Our value proposition through an ability to advise and satisfy customers with very specific needs on typical products and solutions. Customer service at the heart of our business, we have put faith in our people and been rewarded with over five decades of consistent business growth.

As part of our Customer Service Offer, we aim to deliver your order on your next scheduled delivery day provided your order has been received by the agreed cut off time.

Sustainability

What are we doing?

PEMCO places the energy transition at the heart of its value creation strategy, confirming both its ambition and its commitment to building a sustainable future.

We are constantly looking to improve our own impact within the supply chain. Over the years, we have changed our Manufacturing processes to start using recycled material on all our oval conduits. We re-use all waste raw material.

We continue to invest in our on-site Reclamation Operation, allowing us to provide an efficient recycling infrastructure for collecting uPVC and processing it into raw material. This enables us to increase efficiency and decrease its revenue/energy costs to safeguard a greener better future. As a result, we are considered to be one of the leading environmentally friendly companies in our field.

Buying PEMCO - Irish manufactured products can help reduce your carbon footprint by shortening transportation, distances, which lowers energy use and greenhouse gas emissions.

## *Serving the Electrical Wholesale industry all over Ireland daily.*

Metal Flush, Switch & SocketGalvanised Boxes
Flush Metal Boxes

PEMCO flush metal galvanised back boxes are made from high quality steel and are available in 0.8mm and 0.9mm thickness. They are commonly installed within hard or solid walls such as brick or stone. This Means they usually require the wall to be chased and chiselled to provide the cut out. Once the front plate of the switch or socket is installed, they should sit flush to the wall for a smart finish.

Pemco stock a full range of Metal Boxes, including Flush, Extension Boxes, Knockout Boxes and accessories. All Boxes are manufactured in accordance with BS4662, with 1mm Pre - Galvanised, Steel they have 1 Fixed and 1 Adjustable Lug and Brass Pillar Type Earth Terminal.
# PROGRESS ELECTROPLATING AND MANUFACTURING CO.LTD
Metal Flush Switch & Socket Galvanised Boxes

Earthing

Earthing Products

PEMCO Earthing Products are specifically designed with the user's safety in mind. From clamps to rods or boxes, we have them here. All are manufactured to the highest quality to ensure safety should they be needed.

PEMCO have a full range of Earthing Equipment incluing Earth Rods manufactured to ISO9000 standards Earth Clamps, Earth Straps in a range of sizes, Earth Boxes, etc.

PROGRESS ELECTROPLATING AND MANUFACTURING CO.LTD

Earthing

PEMCO Earth Boxes are manufactured in High Density Polyethylene with Green Lids and are used to protect cable connections to Earth Rods.

Earth Boxes

Product Code	Description	Qty
10411	PVC Green Earth Inspection Box	50
10419	Stop Cock Earth Cover Aluminium	25
10430	Earth Pit 5000kg Impact Strength	

PEMCO Earth Rods are fabricated from S 235 JR Steel and Hot dipped galvanised to EN ISO 1461 : 2009 and ASTM A123-02 Standard.

Earth Rods

| Product Code	Description	Size	Qty
10400	Earth Rod and Clamp	4ft x 16mm	10
10401	Eath Rod and Clamp	6ft x ¾"	5

PEMCO Earth Rod Clamps are manufactured in steel and galvanised to Spec DIN 741. Thread Metric M12.

Earth Clamps

Product Code	Description	Size	Qty
10403	Clamp	16mm	100
10404	Clamp	¾"	100

PEMCO Earth Sleeving is manufactured from an extruded neoprene/chloroprene compound. Available on a drum or loose coils.

Earth Sleeving

10421	Green/Yellow	4mm	100m Coil
10422	Green/Yellow	6mm	100m Coil
10425	Brown	3mm	100m Drum
PEMCO Earth Straps are manufactured in Phosphor Bronze for the body and strap. Various sizes available to suit most pipe diameters.

Earth Straps (Bonding)

Product Code	Description	Size	Qty
10414	B14 Standard Earth Strap-Pipe (Diametions Size 6mm - 12mm ½"- 1¼")	6"	20
10407	Earth Strap-Pipe (Diametions Size 50mm - 75mm 2"- 3")	12"	20
10408	Earth Strap-Pipe (Diametions Size 75mm - 125mm 3"- 5")	20"	20
10409	Ezyearth Clamp-(Radiator Clamp)		10

PEMCO Denso Tape is a cold applied tape which remains plastic over a wide temperature range. It is non-hardening and non-cracking.

Denso Tape & Anti Static Cleaner

Product Code	Description	Size	Qty
10410	Denso Tape	30mm	40 Box
10416	Denso Tape	50mm	24 Box

Wiring Accessories

Wiring Accessories

PEMCO Electrical and Wiring section covers products such as Electrical Connectors, Adaptable Boxes Switch's and Socket Boxes, Fuses Cable Glands and Plug Tops. All the essential accessories you will need when you are looking to replace the sockets in your home or business or to conceal electrical connections and everything in-between. We have all the products you will need to complete the job.

Strip Connectors

PEMCO Strip Connectors are a modular block with an insulated frame that secures two or more wires together. The insulating body of a terminal block houses a current carrying element (a metal strip or terminal bar).

Toggle Connectors

Our Toggle Connectors are designed to make the splicing or joining of wires together without needing tools. The splicing Connectors are easier to use quicker to install and smaller than your standard strip connectors.

PEMCO wiring accessories combine advanced technology, reliability and distinctive styling. The choice of products and accessories available is extensive and suitable for domestic, commercial and industrial environments. All products comply for testing for verification of conformity.

29101	Stock and Die Set	20-25mm	1
29101/A	Replacement Die	20mm	1
29101/B	Replacement Die	25mm	1

♦ All our bending machines are fabricated from 30mm square section tubing to provide a rock solid frame which more than stands up to the rigors of daily use.

♦ The frame is designed to give maximum stability, minimising the risks of sideways movement or skidding across floors making operation as easy and effective as possible.

♦ The formers, which are key to creating a perfect bend, are machined cast aluminium. This means they provide a superior and highly accurate bend as the machined area provides a perfect profile to support the pipe and gives excellent contact and virtually no movement. By comparison, most other brands use non machined die casts.

Concrete Systems
Concrete Wall Boxes Formworks

Wooden formworks

The best solution for mounting of fixing lids on horizontal formworks in is by screw. The main box parts are then simply attached to the positioned fixing lids.

Steel formworks

Today fixing with magnets is the prevailing form for steel formworks. A rubber coat prevents wet concrete from diffusing into the gaps between magnet and formwork and ensures also easy removal of form boards.

Vertical formworks

For all cases in which concrete is poured into vertical formworks the installation boxes need to be fixed with spacer tubes and counter supports. This guarantees a secure and firm fixing of the boxes between the form boards.

Urea moulded heat resistant back cover with marking

Range Introduction

This range is designed to comply with the relevant Britsh Standards. Products are manufactured from heat resistant Urea. Products are suitable for 25mm flush or 32mm surface mounting boxes except for Duel Voltage Shaver Socket. Shaver Socket suitable for 45mm flush or 47mm surface mounting boxes.

Lamp holders and Accessories

Our Lamp holder is a device which mechanically supports and providers electrical connections for a compatible electric lamp. Sockets allow lamps to be safely and conveniently replaced (Re-Lamping). We offer a full range of Lamp holders including, Heat Resistant, Bakelite, Porcelain, Pendant, Kits and accessories. All products are packed together with instruction leaf in individual. clear poly bags to ensure that products remain clean and undamaged right up until the point of installation.

Range Features

- Urea scratch resistantand Heat Retardant faceplate.
- Ideal for both home and commercial decorative use.
- Perfect engineering design that allows all the ribs on the back of front cover with slope angles where the ribs connect to the front plate helps reduce the possibility of sink marks on the front.

Dimensions

- Product Measurements
  One Gang: 86mm x 86mm x 9.5mm
  Two Gang: 146mm x 86mm x 9.5mm
- Supplied with accessories bag, includes two 30mm, M3.5 fixing screws and 2 pieces of Screw Caps.

## Surface Metal Clad & Rotary Isloators

Surfce Metal Clad

Integral Earth Terminal Capacity: 2x2.5mm² with Earth

Switch Back Box Knockouts: 1gang with 5 x Ø20mm, 2 on top, 1in each Remaining sides 2gang with 7 x Ø20mm, 3 on top, 1 in each Remaining sides, and 2 on the bottom.

Metallic Powder Paint RAL7040 Finish is corrosion, and scratch Resistant

Printing on the Rockers

Highly Impact Resistant

Switch Back Boxes without Sockets available

Specifically Design Back Box to Ensure neat and exact fit

Supplied with 2 pcs 16mm Long M35 Fixing screws

Urea Moulded Insertion Plate

Double Pole Switching, Center Rockers

3-Pins "Child Resistant Shutter System" Designed to inhibit access to the electricity supply, Unless All 3 pins of a standard British, 13amp plug are in position!

Range Introduction

The range of metal clad accessories are designed to withstand the Toughest conditions and heaviest knocks particularly in industrial Installations such as factories, workshops, garages and sheds. Made from heavy gauges steel as material and in front plate is Coated with two layers tough paint finish/products are impact resistant will maintain its good looks through years of hard labour.

Features

- 1.2mmThickness steel plate as material.
- Neon versions available.
- Complete with surface mounting back box.
- 45A Cooker products are supplied with Deeper Switch box, Box Deep 50mm.
- Steel Power Coated: RAL7040 Grey Colour.

Dimensions

- Sizes: One gang 80x80x42mm
  Two Gang: 140x80x42mm

Isolators Switches

Isolator switches play a crucial role in electrical systems by providing a means to safely disconnect circuits and equipment for maintenance, repairs, or during emergencies. These switches are designed to physically isolate a specific part of an electrical system ensuring that no electrical current flows through the disconnected components. Isolator switches are essential for the safety of both personnel and equipment preventing potential hazards such as electric shocks and short circuits. Whether industrial settings, power distribution networks or residential, installations, isolator switches serve as fundamental components in maintaining and managing electrical systems, effectively. Rotary Isolator Enclosure,s. EN: 60947 Certified.

New Range of LED Floodlights

PEMCO LED Floodlights

PEMCO Outdoor LED Floodlights are perfect for adding security to commercial and residential areas in particular the outdoor areas of your home or business premises. PEMCO External LED our outside Floodlights are increasingly being installed in these settings as they help intruders stay away from your home or business. Outdoor Floodlighting can also be used to highlight specific objects or signs.

PEMCO LED Floodlights includes PIR LED Floodlights. This option gives an additional level of security as the motion sensor attached to the LED PIR Floodlights the light when it detects movement.

All our LED Floodlights and LED PIR Floodlights are IP65 rated meaning they are fully protected against dust and water. This combined with a long lifespan means there are very few maintenance costs as it will be years before the fittings need the bulb replaced.
